

Getting to hope

For young people
living with chronic
health conditions

*What does
hope feel
like?*

Who is this for?

- Young people between the ages of 12 and 25 years old
- Living with a chronic health condition that has lasted more than 2 years and is expected to last into adulthood

How can you help?

Scan the QR code or go to the website below to complete a short survey and help researchers learn the best way to measure hope. Don't forget to enter your email address at the end of the survey for a chance to win a \$50 Amazon Gift Card.
